STAR CANDLES. THE attention of the public is invited to the fact, that most of the Star Candles offered for sale are DEFICIENT IN WEIGHT, so that what is sold for a round actually weighs but fourteen or fifteen ounces, and packages marked "40 lbs." fall short two, three and even five pounds per box. This loss does not fall upon the wholesale dealers, who sell packages at MARKED WEIGHT; nor upon he retailers, who sell by Corsy, but upon the consumers, who thus pay for about one-tenth more than they receive. The subscribers have always made their Can'les full sixteen nunces to the pound, and mark packages at their real weight, which may be ascertained by testing them. As their experiquality to any in the market, they solicit the patronage of rchasers who desire to study their own interest, and, at the same time, encourage correct dealing
